

PENETRATING SEALER

WATER-BASED // 40% ACTIVES

SILOXA-TEK[®] 8500

Penetrating Concrete Sealer

AN INDUSTRIAL-GRADE, WATER-BASED, SILANE/SILOXANE PENETRATING CONCRETE SEALER ENGINEERED TO REDUCE WATER & MOISTURE INTRUSION WHILE PROTECTING CONCRETE BRICK & MASONRY FROM CHLORIDES AND SALTS.

BENEFITS:

- // Water & Salt Repellent
- // Prevents Deicing Salt Damage
- // Resists Mold, Mildew & Efflorescence
- // Resists Cracking & Surface Erosion
- // Locks Out Moisture

DESCRIPTION:

Siloxa-Tek® 8500 is our favorite concrete sealer to treat nearly any application. Made with a proprietary blend of silane/siloxanes, this clear penetrating concrete sealer not only prevents deicing salt, chloride and freeze-thaw damage, but its hydrophobic nature resists moisture intrusion and vapor transmission. It dries completely clear with a natural finish that will not change the look or appearance of the substrate. This is the go-to choice to seal any concrete, brick, or masonry based substrate especially driveways, basements, patios and garages.

PERFECT ON:

Concrete, concrete blocks/cinderblocks, brick, pavers, exposed aggregate, stucco, stone, slate and sandstone.

DESIGNED FOR:

Driveways, sidewalks, patios, pool decks, garages, chimneys, and roof tiles. Also used for plazas, food courts, parking garages and machine shops.

MEETS OR EXCEEDS:

ASTM E-96: Water Vapor Transmission

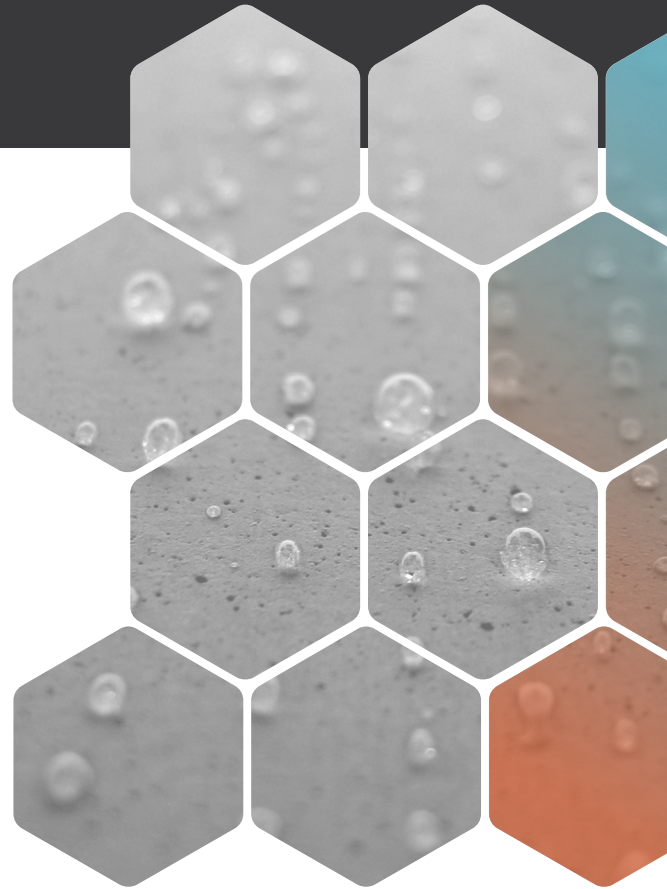

ASTM E-514: Water Penetration

ASTM C-672: Scaling Resistance

AASHTO T-259: Chloride Ion Penetration

NCHRP 244 II/IV: WVT, Chloride Intrusion

OHD L-34: Depth of Penetration

SIZE(S):

Ready to Use

1 Gallon 4, 2 or 1 855849005040

55 Gallon 1 855849005422

Concentrated

1 Gallon 4, 2 or 1 855849005163

55 Gallon 1 855849005606

CASE PACK:

UPC (EA):

Low VOC
90 g/L

Natural
Finish

2 Coats
Recommended

250 sq. ft.
per gallon

100 Year
Warranty
