

PENOFIN PRO-TECH STRIPPER

STEP ONE

PRODUCT DATA SHEET

PENOFIN PRO-TECH STRIPPER:

Specially developed to effectively remove oil and latex finishes on all exterior wood, composite, or concrete surfaces using New Clean Strip Technology. Pro-Tech Stripper leaves little or no residue and provides double the coverage of average strippers. This product is ready to use, 100% biodegradable, non-flammable, and certified zero VOC. Pro-Tech Stripper is the first step to preparing your wood for a beautiful Penofin application.

PENOFIN PRO-TECH STRIPPER APPLICATIONS:

- ◆ Removes oil and latex finishes, and loose wood fibers.
- ◆ Removes oil finishes from wood, composite, and concrete surfaces.

TECHNICAL DATA:

VOC: 0

Installation Temperature: No Temperature Restrictions

Dry to Touch: 24 hours

Available Container Sizes: Quart & Gallon

Coverage: Approximately 75sq. ft. per quart, and 175sq. ft. per gallon.

SURFACE PREPARATION:

Use Penofin Pro-Tech Stripper at temperatures when wood is not hot to the touch. To remove any debris, sweep, or use a power blower. Protect bordering metal and glass surfaces and tape off any areas not being stripped. Dampen surrounding vegetation with water.

APPLICATION:

Shake product well before using. Do not think or blend with other products. Wet the surface to be stripped with water. Apply a generous coat of the stripper solution with a plastic garden pump sprayer. Penofin Pro-Tech Stripper #1 will soften and/or dissolve most oil-based coatings in 15-30 minutes. Keep the wood surface wet by occasionally misting with more solution. After 15-30 minutes, scrub the surface with a non-metallic bristle brush or long handle push broom. Rinse thoroughly with Clean water using a garden hose with a spray attachment

pressure washing is not recommended). To achieve the best result for perfect preparation for Penofin wood finish, follow up with the **Pro-Tech Cleaner #2** and **Pro-Tech Brightener #3**. **Penofin Pro-Tech Wood Stripper #1** will not remove any water-based and/or resin based products. If the wood was previously treated with a water-based product, or a product containing a type of resin, it is recommended to use a general wood stripper or acrylic stripper to removed the old product. For best results, follow up with the Pro-Tech Cleaner #2 and Pro-Tech Brightener #3.

ALWAYS WEAR RUBBER GLOVES, EYE PROTECTION, AND SOLID SHOES WHEN APPLYING. SURFACE WILL BE SLIPPERY. DO NOT IRRITATE MUCOUS MEMBRANES, MAKE NOSE RUN, AND EYES WATER.

CLEAN –UP:

- ◆ Thoroughly rinse all equipment with water.
- ◆ Store any unused Penofin Pro-Tech Wood Stripper #2 in its original container.
- ◆ Do not transfer to metal container as it will cause a chemical reaction.
- ◆ Protect from freezing.
- ◆ For disposal of unused product and empty containers, contact your local household refuse collection service.
