

PENOFIN[®]

SINCE 1979

PURE LIFE PURE STYLE

PENOFIN®

Barbara Newell, Ph.D, CEO,
Chairman and Founder

"In this age of globalization and corporate consolidation, we at Penofin have remained true to our core beliefs and identity of being one of the last remaining proudly independent coating companies. Our commitment to our customers and independent channels of dealers and distributors is sacred and we will continue, with an uncompromising approach, to provide the highest quality products for your coating needs."

*"All of Our Products Adhere to Our Number One Goal:
Protect and Reveal Nature's Beauty.
Period."*

"I Invite you to explore our product offerings and share in our passion."

Protect Your Investment

"...I have been in the building industry for 45 years, and my clients these days are very high end and demand quality results. When it comes to hardwood deck projects I prefer Penofin products to protect them and bring out the natural beauty of the wood. The results are always outstanding..."

PENOFIN®

The Ecological Choice for Beauty, Quality, Purity

No Compromise On Beauty. Interior/Exterior Formula

"...We tried numerous products but no other product met our standards for penetration, durability, low VOC's and beauty; until we found Penofin Verde. Penofin Verde has little to no VOC's, unsurpassed penetration, and enhances the natural beauty of our wood flooring. We were so impressed we designed an entire wood flooring line around it..."

PENOFIN®

PENOFIN PRO-TECH CLEANERS

"...I would have to say of all the products I have used, there is no other like the Penofin. The cleaner itself does so much to remove the algae staining and weathering of wood but when you use the brightener it's AMAZING!..... I literally think it cleans and brightens it better than the first day the Structure was built..."

Brian Jalbert -
Jalbert Contracting

Biodegradable - Safe for Soil and Plant Life, No V.O.C.'s, Easy to Apply

How May We Assist?
Contact Us At: 1.800.736.6346

Avoid Spontaneous Combustion of oily rags. Soak all used cloths in a covered, metal bucket of water, ensuring the cloths are completely covered with water until they can be properly disposed of at your local hazardous materials drop-off.
