

Smart-Bit[®] Deck Screw Depth Setter

Driving Tool for Setting Screws to the Perfect Depth

Smart-Bit[®] Deck Screw Depth Setters are designed to make fastening decks, drywall, and other materials easier and faster, with clean and uniform results: perfectly set screws every time. The tool is adjustable so that it can be used with many different types of screws, and features an Auto-Stop[™] mechanism that sets the screw at the target depth without stripping the screw recess. A free-spinning stop collar fitted with rubber O-ring protects the work surface from damage or marking.

The Depth Setter works with both Phillips[®] and Torx[®] bits, and is designed for use with a full range of Starborn fasteners. It also works well with other fastener products.

Adjustable screw depth

Auto-Stop[™] Mechanism
For consistent screw depth

Free-spinning stop collar
No surface damage

Depth Setter Features

Auto-Stop™ Mechanism

Once target depth is reached, the Auto-Stop™ mechanism inside the tool disengages the driver bit and stops the screw from driving further, without stripping the screw recess.

Works with Torx® and Phillips® Bits

Each tool includes one T-20 bit in the tool and four additional replacement bits: (2) T-20 bits, (1) T-25 and (1) #2 PH.

Adjustment and Locking Rings

The depth can be adjusted for many different types of screws and applications. A locking ring secures the depth setting for consistent screw depth every time.

Free-Spinning Stop Collar

The free-spinning stop collar is fitted with a rubber O-ring to prevent damage to the work surface.

Note: Impact drivers may not set screws to the correct depth. Standard drills are recommended for use with the Smart-Bit Depth Setter.

Typical Applications

Cap-Tor® xd: Color Matched Screws for PVC and Composite Decking

Deckfast® Metal: Color Matched Screws for Fastening PVC, Composite and Hardwood Decking to Trex Elevations and other Metal Framing Systems

Deckfast® Epoxy: Color Matched Screws for Pressure Treated Lumber and PVC Trim

Drywall, General Construction Fasteners, Woodworking and Miscellaneous Fastening Applications
