

2024 HIDDEN FASTENER SYSTEM

FOR BEAUTY THAT NEVER FADES, MAKE SURE
IT'S BY TREX FOR TREX.

Fastener Options from the Trex Hideaway Collection

The Trex Hideaway Fastener Collection stands as a comprehensive and versatile solution, offering the technology and tools needed for a seamless composite deck installation. From color-match decking and fascia screws to plug systems for both decking and fascia boards, every component within the collection is engineered to provide structural integrity and a polished aesthetic. This commitment to innovation has helped Trex create a composite decking fastening system that simplifies the building process, making it accessible for DIY enthusiasts and professionals alike.

At Trex, we're focused on living up to all the ways you want to live outdoors. That's why we continue to add to our collection of innovative products that are engineered to fit every build and budget. From decking and railing to lighting and fasteners, you can rely on us to be your inside source for all things outdoors. Our latest innovation includes our expanded fastener collection, which was created with one goal in mind – making it easier to build your Trex deck.

BY TREX FOR TREX – Meticulously researched, rigorously tested and expertly crafted.

WORRY-FREE INSTALL – Build a long-lasting and better-looking deck easily, with industry-leading patents.

PRODUCT WARRANTY – Backed by the same warranty as the Trex boards themselves because this is the Trex-recommended way.

TREX HIDEAWAY® CLIPS

KEEPING THINGS HIDDEN.
IT'S WHAT MAKES US STAND OUT.

This self-gapping hardware is ideal for fastening grooved boards of your deck. It features a stainless steel deck screw preset in the fastener for increased durability and easier installation. Install our grooved-edge deck boards to joists with no visible screw heads on the walking surface and achieve precisely consistent spacing between boards. All Trex® decking collections are compatible with this hidden installation option, promising a clean finish no matter your design style.

BENEFITS

Exclusively Trex | Engineered specifically for Trex decks

Effortless Installation | Simplified and quick installation that saves time and labor

Unparalleled Aesthetics | Delivers a seamless topside for a sleek appearance

Hassle-Free Maintenance | Allows for easy board lifting if access is needed

FEATURES

Provides seamless, fastener-free appearance across entire deck surface.

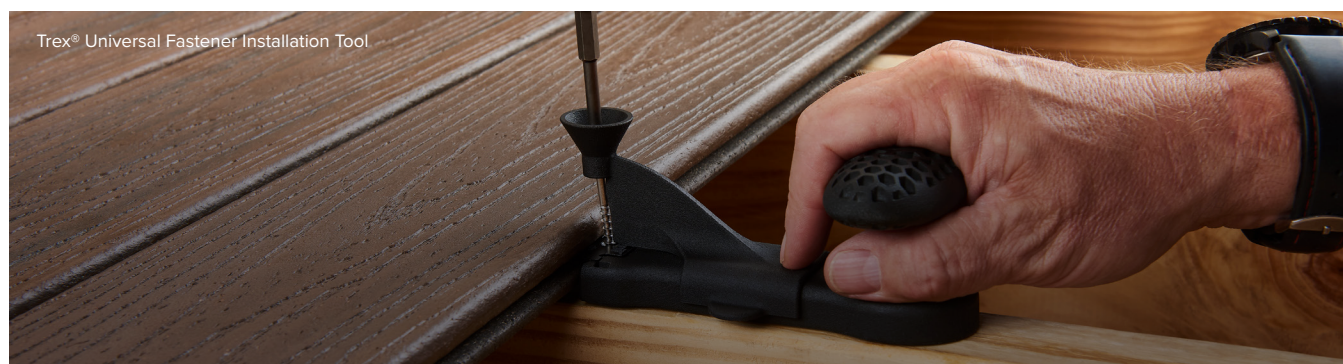

Glass-filled nylon construction for superior durability.

Preset stainless steel screw for ease of installation.

Works with all Trex grooved decking products.

Trex Hideaway® Butt Joint Clip

Trex® Universal Fastener Installation Tool

TREX HIDEAWAY® COLOR-MATCH COMPOSITE DECKING SCREWS

OUR ABILITY TO PRECISELY MATCH COLOR AND TEXTURE IS, WELL, UNMATCHED.

Crafted specifically for Trex decking, Trex Hideaway® Composite Deck Screws offer both precision and reliability. And because these composite deck screws deliver the ultimate color match with Trex decking, you can expect a harmonious look from fastener to finish. Designed to work seamlessly with all Trex decking collections, these allow you to dive into driving without the fear of mushrooming or color stripping and let the beauty of a Trex deck shine through. Even better, Trex is here to help throughout the building process with our comprehensive installation resources to build your deck faster and more securely.

BENEFITS

Exclusively Trex | Engineered specifically for Trex decking and fascia installations

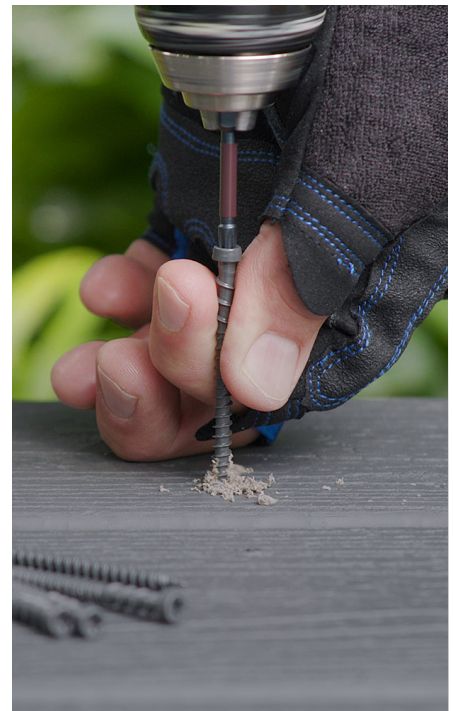

Worry-Free Matching | The ultimate color match, every time

Fastening Made Easy | Hassle-free installation backed by comprehensive installation resources

Holds Up, No Fuss | Resists mushrooming, stripping, rusting and fading

Smooth Drive | Wobble-free screw driving engineered for minimized effort, even in dense board installations

Exceptional Finish | Reduces material displacement and maintains the board's natural appearance

FEATURES

Board-Friendly Design | Specialized machine slot cut ensures minimal disruption during installation

Precision-Driven Reliability | Partnership with Phillips HEXSTIX® maximizes accuracy and dependability

Clean & Clear | Sharp upper threads expertly shear away debris for a smooth drive

Long-Lasting Brilliance | Enhanced UV protection defends against fading and wear

Consistent Adherence | STICK-TIGHT® technology guarantees the perfect bit fit with every drive

Smooth Sailing | Tri-lobe shank design streamlines driving into even the densest boards

TREX HIDEAWAY® ENHANCE® DECKING PLUG SYSTEM

FOR A FLAWLESS LOOK ACROSS YOUR ENTIRE DECK.

Expertly designed, our fascia plugs work together with our Trex Hideaway® Composite Fascia Plug Screws, Depth Setter and Fascia Counterbore to ensure a polished finish. Through innovative manufacturing technology, they ensure impeccable color and texture matching, resulting in a seamless finish.

BENEFITS

Lasting Durability | Resistant to mushrooming, stripping or fading, while ensuring board integrity

Hassle-Free Plugs | Simple plug removal from the collated strip without twisting, and with ample space between plugs to tap each plug into place

Time-Saving | Collated plugs offer up to 50% faster installation time when compared to loose plugs

FEATURES

Versatile Pack Sizes | Multiple options for flexibility

Trex Enhance® Compatibility | The only Trex-approved solution to securely and precisely fasten your Trex Enhance® deck builds

Protective Design | Depth-setting drive bits with protective rubber tips and durable Depth Setter

Secure Fit | Ribbed edges on plugs ensure a snug and secure placement

As the first and only Trex-approved plug option for Trex Enhance builds, they're essential for a TrexTrue deck.
